An ebook (short for electronic book), also known as an e-book or eBook, is a book publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices. Although sometimes defined as "an electronic version of a printed book", some e-books exist without a printed equivalent.

Biofeedback is the process of gaining greater awareness of many physiological functions of one's own body, commercially by using electronic or other instruments, and with a goal of being able to manipulate the body's systems at will. Humans conduct biofeedback naturally all the time, at varied levels of consciousness and intentionality. Biofeedback and the biofeedback loop can also be thought ...

Osteoarthritis is the most common chronic musculoskeletal disorder. Epidemiological studies estimate around 43 million affected patients in the United States alone and about 15% of the world population [1, 2, 3]. It is the leading cause of activity limitation and absenteeism among working-age adults and is associated with a significant decline in function among older individuals.
