### Grade 2 Envision Math Activities

I use enVision Math in my second grade classroom and I love it. I have never had students learn as well as they have with enVision. They do an amazing job of teaching them how to really develop an understanding of numbers and math. However, it requires skill to teach it properly. It is not a book that can be given to a child to do on their own.

enVision packs a unique one-two punch. Lessons start with Problem-Based Learning (PBL), where students must think critically about a real-world math problem, evaluate options, collaborate, and present solutions. This is followed by Visual Learning to solidify the underlying math concepts. It's the best way to help kids better understand math ideas.

Envision is a good, solid curriculum after 1st (I have to supplement a lot on first) - though on the expensive side. Very costly unless you buy used. The 1st grade book, imo, is lacking, They can do more problems. The first grade workbook is too light as well. I use MM more on my first grader. I have 2nd too, it looks more solid than 1st.
