## **Fao Soil Classification Of Yola**

Soil Classification  
concerns the grouping  
of soils with a similar  
range of properties  
(chemical, physical and  
biological) into units  
that can be geo-  
referenced and

# Get Free Fao Soil Classification Of Yola North

mapped. Soils are a very complex natural resource, much more so than air and water.. Soils contain all naturally occurring chemical elements and combine simultaneously solid, liquid and gaseous states.

Organization of the United Nations (FAO) developed a supra-national classification, which offers useful generalizations about pedogenesis in relation to the interactions between the main soil-forming factors. It was first published in form of the UNESCO Soil Map of the World (1974) (scale 1 : 5 M.). Many of the names offered in that classification are
