History Pictures Cave Computer Screen

A history of pictures by David Hockney The history of pictures begins in the caves and ends, with a computer screen. Who knows where it will go next? But one thing is certain, the challenge remains the same: how do you represent the three-dimensional world on a two-dimensional surface? David Hockney was born on July 9, 1937, in Bradford, England.

A History of Pictures: From the Cave to the Computer ...

In fact, Hockney argues, whether they are made by brush, camera or digital program, and no matter if they are on cave walls or computer screens, first and foremost they are all pictures. And for us to understand how we see the world around us - and hence ourselves - what is needed is a history of pictures. This is that book.

David Hockney sees no reason to assume that art is bound on a trajectory of inevitable progress and development. 'Why', he asks, 'does it have to go anywhere? Art hasn't ended, and neither has the history of pictures'. A History of Pictures: From the Cave to the Computer Screen is published by Thames & Hudson.

A History of Pictures : NPR

The making of pictures has a history going back perhaps 100,000 years to an African shell used as a paint palette. Two-thirds of it is irrevocably lost, since the earliest images known to us are from about 40,000 years ago. But what a 40,000 years - explored here by David Hockney and Martin Gayford in a brilliantly ori
