The Chemical and Physical Foundations of Living Systems section of the MCAT, often abbreviated as the Chem/Physics section, requires you to solve problems based on knowledge of chemistry, physics, and organic chemistry. The content on this section of the test also includes biochemistry and a small amount of biology.

Mcat

Chemistry is physics. Physics is life. Not surprisingly, this was the claim of a physics professor. Walking into MCAT preparation, many students think of physics as the least applicable science to medicine, reflecting on calculus-heavy premedical classes. But even in the medical field, physics is all around us.

Questions: Physics - Kaplan Test Prep

Your MCAT comprises
four sections:

Chemistry and Physics
(C/P), Critical Analysis
and Reasoning (CARS),
Biology and
Biochemistry (B/B), and
Psychology and
Sociology (P/S).

Biochemistry, which we
will discuss in depth in
this blog, is tested on
two sections of your
exam. Biochemistry is
