Right Brained Children In A

The left and right hemisphere of the brain always work together (C). Differences in hemispheric dominance (left brain, right brain) can help explain individual differences amongst learners (I). The brains of boys and girls develop at the same rate (I). Brain development has finished by the time children reach secondary school (I).

Neuromyths in Education: Prevalence and Predictors of ...

Problems with the theory. To date, the benefits of separating students on this basis have not received significant scientific evidence. In addition, an extensive study by Jared A. Nielsen showed that human behavior cannot be "left-brained" or "right-brained", because our brain is much more complex and those properties that were previously attributed to only one part of the brain should ...
